

## How to List Real Estate on ArkansasMatters.com

You must be logged in to post a real estate listing. If you are not logged in you will be asked to do so. If you are not registered, you will need to register first. After you have successfully logged in, you will be able to begin creating your listing.

Use your internet browser to go to

<http://www.arkansasmatters.com/content/marketplace/realestate/post> The following form will be displayed.

**Real Estate Post-Edit Item** KARK4

We need some more information before we can allow you to start posting to the Real Estate section. Please fill out the form below to continue.

First Name:  (required)

Last Name:  (required)

E-Mail:  (required)

Phone:  (required)

Alt Phone:  (optional)

Web Site:  (optional)

Input your first name, last name, e-mail address, and phone number. You may also enter an alternate phone number and/or a web site address if you wish. When you have completed the form, click the submit button.

After you click submit, a new form will be displayed where you enter the following information about your property: category, address, city/state, zip code, price, hometype, # of bedrooms, # of bathrooms, garage size, fireplace (yes or no), sq. footage, acreage, year built, special features about the location (near a school, lake front, public transportation, etc.), neighborhood, school district, and short and long descriptions.

When selecting a category, make sure your selection is under the correct heading, as each category is listed twice, once for rentals, and then for sales. If you are selling a duplex, make sure to select the second listing for duplex, under for sale, not the first listing of duplex, which is under the for rent category.

Once you have successfully entered all of the information you wish to include in your listing, click the submit button.
